## EDUCATION

**Tufts University, Medford, MA**

Expected Graduation: May 2024

*Bachelor of Science in Computer Science, Minors in Mathematics and Theater*

**GPA:** 3.70 / 4.0, Dean's List

**Relevant Courses:** Real Analysis, Data Structures, Mathematical Modeling, Machine Structure and Assembly-Language Programming, Data Science and Data Analysis, Data and Power: Surveillance, Programming Languages, Web Programming

**Fall 2023:** Algorithms, Internet-Distributed Systems, Ethics for AI

**Skills:** C++, C, Python, Java, Typescript, HTML, CSS, JavaScript, JQuery, PHP, Node.js, Angular, Spring Boot, Git, Gitlab, Atlassian Jira, Confluence, SQL, PostgreSQL, MongoDB, Pandas, Scikit-learn, Tensorflow, Impcore, Scheme, SML, NML, LaTeX, Excel, Microsoft, Google Colab, Jupyter Notebook, VsCode, Slack, SiteGround, Heroku, Professional Working Spanish, Beginner Italian

## EXPERIENCE

**Full Stack Software Engineering Intern, Blue Cross Blue Shield of Massachusetts, Boston, MA**

June 2023 – Aug 2023

- Designed an Angular Service and enhanced the frontend to display a dynamic array of links
- Scraped data from LogRocket navigation using Spring Boot and Java, sent the response to a Python driver file, and then cleaned the data before sending it to a PostgreSQL database
- Built multiple machine learning models and trained them to predict the top three links for five general insurance plans
- Utilized apigee to connect the machine learning and backend code to the frontend and display the unique set of generated links based off one's insurance plan on the homepage of the BCBSMA website

**President, Tufts TAMID, Medford, MA**

Dec 2021 – Dec 2022

**Co-Director of Data Science Sector, Tufts TAMID, Medford, MA**

Apr 2021 – Dec 2021

**Associate Data Scientist, Tufts TAMID, Medford, MA**

Oct 2020 – Present

- Oversaw the consulting, finance, and data science sectors of TAMID at Tufts and managed the chapter's budget
- Coordinated projects and membership, organized and taught education sessions in a variety of data science topics
- Learned about various aspects of data science, such as deep neural networks and decision trees, and applied this knowledge to professional and real-world experience, most recently through a project with TropX

**Teaching Assistant for Computer Science, Tufts University, Medford, MA**

Aug 2021 – Present

- Teach students recursion, pointers, and functional programming
- Staff 3 office hours, grade 10 students, and lead a 26 person lab each week
- Assist with course infrastructure

**Teaching Assistant for Summer Immersion Program, Girls Who Code, Virtual**

May 2022 – Aug 2022

- Taught HTML, CSS, and JavaScript while promoting sisterhood and making an impact with STEM and computing

**Exercise Modeling Data Intern, TropX, Medford, MA**

Oct 2021 – Dec 2021

- Trained binary classification model on exercise data using Keras LSTM layer that identifies the correct execution of exercises

## PROJECTS

**Image Compressor and Decompressor (C)**

- Applied a Discrete Cosine Transformation and bit packing techniques to compress a ppm image to a binary file
- Utilized bitwise operations to decompress a binary file to a ppm image while averaging 2% data loss

**E4U (HTML, CSS, JavaScript, JQuery, Node.js)**

- Designed a web application that utilizes MongoDB to create user profiles, add workouts, search for relevant exercises in an API, view past workouts, and edit and delete past workouts

**Theta Tracker (HTML, CSS, JavaScript)**

- Designed a website that would allow members of my sorority, Kappa Alpha Theta, to access points and financial dues using a password-encryption system without having to contact the Vice President of Administration or the Vice President of Finance

## INTERESTS

Musical Theater, Disney, Sousaphone, Trivia, History, Judaism, Community Outreach
