PROFESSIONAL SUMMARY

Software Engineer at Disney Streaming with internship experience at Major League Baseball and Blue Cross Blue Shield. Proven leader through project work with Tufts TAMID, service as Co-Chair of Disney Streaming's Speaker Committee and Culture Co-Chair of SHALOM, and experience teaching computer science, leveraging a diverse skill set in management, programming, data analysis, and network security.

EXPERIENCE

Disney Streaming, *Product Software Engineer II* Jul 2026 – Present

- Join the 3PP activation platform team and ship 27 PRs in 2 months, including a manual-invocation **AWS Lambda** behind an **internal ALB** (**CDK, Smithy, OpenAPI**), a **DynamoDB-backed** cohort label mapping API, and a request events **API**; lead the team's migration to **trunk-based development** for library-based repositories
- Contribute to the cross-language removal of a legacy partner offer field across **Scala, Go, and the contract registry**, and authored a reusable field deprecation guide for future provider config cleanup

Disney Streaming, *Product Software Engineer I* Nov 2024 – Jul 2026

- Lead development of Hulu-to-ACP migration APIs, including credit migration, subscription cancellation, and eligibility checks, using **Scala, Java, DynamoDB, Artifactory, Gradle,** and **PostgreSQL**—ensuring accurate data persistence and robust error handling across user flows
- Build scalable cohort extraction infrastructure in **Python**, replacing complex **SQL** with **Redis-backed** user resolution and deploying via **Docker/Kubernetes** with **Spinnaker** pipelines for reliable ACP migration at scale
- Drive cross-functional efforts with stakeholders at T-Mobile and Spotify, coordinating invoice refunds, partner billing logic, and policy mapping—while taking on a leadership role during management absence and surfacing critical migration blockers

Major League Baseball, *Test Engineering Intern* June 2024 – Aug 2024

- Implemented Playwright test suites for the MLB homepage and Home Run Derby Bracket and enhanced automated testing for the All-Star Ballot by adding **data-testid attributes**, leveraging **JavaScript**, **GraphQL**, **Forge CMS**, **Apollo**, and **React**
- Developed a GitHub Actions–based integration tools to upload **Playwright JUnit** test results directly to **TestRail** and **Slack** using the **TestRail API** and **Slack API**

Blue Cross Blue Shield of Massachusetts, *Full Stack Software Engineering Intern* June 2023 – Aug 2023

- Built a **Spring Boot** and **Python**-based pipeline using **Selenium** to scrape **LogRocket** data and store it in **PostgreSQL**
- Developed a **Random Forest** model to predict the top 3 links for 5 insurance plans, integrating results into an **Angular** service with a **Python** backend for the BCBSMA homepage
- Enhanced security and unified endpoints across **Spring Boot, Python**, and **Angular** within MyBlue developer tools

Tufts University, *Teaching Assistant for Computer Science* Aug 2021 – May 2024

- Conduct student instruction on **recursion**, **pointers**, and **functional programming** while managing office hours, grading assignments, leading a 26-person lab, and contributing to course infrastructure

SKILLS

Languages: Scala, Java, C++, C, Python, JavaScript, TypeScript, PHP, SQL, HTML, CSS, LaTeX
Frameworks & Libraries: React, Angular, Node.js, Spring Boot, Flask, GraphQL, Apollo, Selenium, Playwright, JUnit, Scikit-learn, Pandas, TensorFlow, Beautiful Soup, jQuery
DevOps & Cloud: AWS, Docker, Kubernetes, Spinnaker, Redis, GitHub Actions, GitLab CI/CD, Heroku, Artifactory, HPC
Tools & Databases: Git, Gradle, SBT, npm, Yarn, Jira, Confluence, TestRail, VSCode, IntelliJ, PostgreSQL, DynamoDB, MongoDB, MySQL
Security: Wireshark, Nmap, Netcat, Scapy, Shodan, John the Ripper, Hashcat, Sqlmap, Burp Suite, apktool, Vault Secrets Management
Non-Native Languages: Professional Working Spanish, Beginner Italian

PROJECTS

Hulu on Advanced Commerce Platform (*Scala, Java, PostgreSQL, mySQLWorkBench, and DynamoDB)*

- Implemented APIs to migrate Legacy Hulu and Sprint-based Hulu users to Disney's Advanced Commerce Platform by canceling subscriptions in Hulu's legacy system and transferring billing, support, and gift credits to ACP's unified credit service

Theta Budget Tracker *(HTML, CSS, JavaScript, Jquery, Selenium, Python)*

- Build a sorority budget platform using **Flask** for the backend, **Selenium** for budget scraping, and **Heroku** for deployment

EDUCATION

University of Southern California Aug 2026 – Present
Masters of Science in Integrated Design, Business, and Technology

Tufts University Sept 2020 – May 2024
Bachelor of Science in Computer Science, Minors in Mathematics and Theater, Magna Cum Laude
